CUSTOMER NEWSLETTER

October 2006

ONLINE OPEN HOUSE

September 23rd was an exciting day for All-American Fire Equipment. Although the day started out rainy, it turned sunny and firefighters from 49 different departments began to fill the parking lot. They were provided with the opportunity to inspect two Rosenbauer "Tech Drive" pumpers, a demonstrator pumper, and an "EVI" rescue unit purchased by Lake Volunteer Fire Department, WV. Also showing was CMT's "Engine 343" from the television show 'Trick My Truck.' Everybody attending the open house also got a chance to meet and talk with representatives from four vendors. We had Rodney Miller with Phoenix Rescue Equipment, Trevor Walker with Whelen and Havis Shield, and Jeff Benson with Akron Brass. The open house wasn't only about showing trucks and products. When the firefighters got hungry, we provided a plethora of food ranging from hot dogs from the grill to homemade desserts. Throughout the entire event we raffled away awesome door prizes, ending up with a total of 84 winners. One of the most exciting parts of the day was the bid table. After bids were made on items the firefighters were interested in, salesman Jason Black took on the role of auctioneer, and the items were snatched up at great prices. It is always enjoyable to get together to just have fun, and we knew we had to create a special thank you to those that attended the open house and helped with its success. After considering many options we decided to send a coupon to every department that had a member join us on that Saturday. The coupon was for 10% off any apparatus service/repair or loose equipment purchase. These departments have until the end of the year to take advantage of this special offer. We couldn't have been any more pleased with the entire event. Thank you to everybody that took the time to visit. We plan in the future to have a similar event and hope you will join us once again.

Leslie Vossler
